

Pet Behaviour

SERVICES

About our services

We understand how important behavioural problems can be and their impact on our patients and their owners. Our vet, Jade, has a keen interest in behavioural medicine and believes it plays an important part in the health and well-being of our patients. She is applying for a Master's in Clinical Animal Behaviour, which will expand our range of services.

What we currently offer

- Management of cases that require more time and an environment suitable for nervous animals.
- Assessment and advice on the management of behavioural cases, including fear-aggressive patients.
- Work alongside clinical animal behaviourists and help organise referrals to ABTC-registered behaviourists.
- Provide behavioural advice for new owners.

Cases we can support with

- Cystitis in cats
- Stressed cats, including multi-cat households
- Fireworks - cats and dogs
- Sound reactivity for dogs
- Rehomed/rescued patients
- Anxiety, separation anxiety
- Fear aggression
- Fear of being at the vets
